

## **WE HAD THE VISION. WHAT WE NEEDED WAS FUNDING.**

“We started Mueller Manufacturing in 2000 from the rented corner of a friend’s warehouse; but before long it was obvious we needed space of our own in order to succeed. We approached numerous banks, only to be turned down repeatedly. Then we met with Texas Gulf Bank and everything changed. They took the time to understand our business. They believed in us 10 years ago – and that still holds true today.”
